

Thank You for Letting Me Worship You

You are Light with no darkness
You are Pure with no sin
You are Truth with no lies
So, how can I enter in?

Thank You, for letting me worship You
You would be right, to turn me away
Thank You, for letting me worship You
For making me right, so I can stay

You didn't ignore my sin
You did more than
Forgive and forget
You took care of my sin
On Your own cross
You carried it

So, thank You, for letting me worship You
You would be right, to turn me away
Thank You, for letting me worship You
For making me right, so I can stay

You didn't ignore my sin
You did more than
Cancel the debt
You took care of my sin
With Your own life
You paid for it

So, thank You, for letting me worship You
You would be right, to turn me away
Thank You, for letting me worship You
For making me right, so I can stay

Thank You (thank You)
For letting me worship You (I want to worship You)
You would be right (You would be right)
To turn me away (don't turn me away now)
Thank You (Thank You)
For letting me worship You (I want to worship You)
Making me right (making me right)
So I can stay
Thank You, my Lord
Thank You
